Bonneville Hot Springs Resort and Spa, located in the scenic Columbia River Gorge, announces the addition of the Jane Iredale Mineral Makeup line to the Spa. As a compliment to the Yon-Ka skin care, the Jane Iredale Makeup application is the perfect way to complete you spa treatments. Whether you prefer a natural look or have a special event to attend Jane Iredale Makeup will give you the look you want without diminishing your natural beauty.

“The most beautiful cosmetic you can wear is healthy skin.” says Jane Iredale, President and Founder of Iredale Mineral Cosmetics. That is why everything they develop is a true extension of skin care. Jane Iredale Makeup is not just a refinement of conventional makeup, it is a new technology. So safe and beneficial it is recommended by plastic surgeons and dermatologist worldwide.

Nestled amid natural mineral springs, with a knowledgeable, friendly, and professional staff, Bonneville Hot Springs Resort & Spa offers an amazing spa experience. At this premier choice of Columbia Gorge spas, cascading waters nurture more than skin and body -- they transform the heart and soul. Visit our recently renovated 12,000-square-foot spa. Select from a bountiful array of soothing treatments ... from hot stone massages and anti-fatigue treatments to European facials and herbal mineral wraps. Whether you desire a dip in one of our heated, natural mineral pools or a relaxing massage, you'll enjoy it in soul-stirring fashion at our North Bonneville spa hotel.
